Surgeon, U. S. M. H. S.

*Reports from Matanzas, Cardenas, Isabela de Sagua, and Caibarien.*

MATANZAS, CUBA, September 5, 1900.

SIR: I have the honor to submit, herewith, the following sanitary report of the quarantine district under my command, for the week ended September 1, 1900.

*Matanzas.*—Thirteen deaths occurred in the city of Matanzas during the period covered by this report, showing a mortality of 14.97 per 1,000. The principal causes of death were as follows: Heart disease, 4; tuberculosis, 3; bronchitis, 1; atresia, 1; enteritis tuberculous, 1; other causes, 3. The following cases of infectious or contagious character were reported: Yellow fever, 1; diphtheria, 2. Ten vessels arrived during the week; 8 of these were inspected and passed and 2 passed without inspection. Eight bills of health were issued to foreign vessels. The German steamship *Pionier* bound for Mobile, Ala., was disinfected at this port on August 30, 1900.

One hundred and sixteen health certificates were issued to persons leaving the island. Eighteen immune certificates were issued to laborers employed by the Munson boats for discharging cargoes on the north coast of the island. Seventy-four pieces of baggage were inspected and passed and 122 pieces were disinfected; 36 bundles of clothes and bedding of the steamship *Pionier* were also disinfected.

*Cardenas.*—Acting Asst. Surg. Enrique Saez reports that 7 deaths occurred in Cardenas during the week. The principal causes of death were as follows: Tuberculosis, 1; enteritis, 1; pernicious fever, 1; tetanus infantile, 1; other causes, 3. The death rate during the week was 14.70 per 1,000. No case of infectious or contagious character was reported. Ten vessels arrived during the week; 5 of these were foreign vessels and 5 coasting vessels. Four bills of health were issued to foreign vessels.

*Isabela de Sagua.*—Acting Asst. Surg. Pedro Garcia Riera reports that the death rate during the week was 16.43 per 1,000. No vessel arrived during the week. One bill of health was issued to foreign vessel and 8 certificates of inspection were issued to coasting vessels.

*Caibarien.*—Acting Asst. Surg. Leoncio Junco reports that the sanitary condition of the port and town is good, the prevalent disease being malarial fever. Four vessels arrived during the week; 1 of these was inspected and passed and 3 were passed without inspection. Two bills of health were issued to foreign vessels and 2 certificates of inspection to coasting vessels.
